+91-8978677925 | nambulaveerendra@gmail.com | linkedin.com/in/veerendra-nambula | github.com/VeerendraNambula | Guntur, Andhra Pradesh, India

## PROFILE

Computer Science graduate with a B.Tech in Computer Science and Engineering (AI & ML) and professional experience in full-stack development and decision science. Experienced in software engineering, data analysis, AI/ML applications, backend development, databases, and cloud technologies.

## EDUCATION

### B.Tech in Computer Science and Engineering (AI & ML)

Vasireddy Venkatadri Institute of Technology

2021 – 2025

CGPA: 7.26/10

## EXPERIENCE

### Full Stack Developer

Feb 2026 – Present

*Eljo Solutions*

- Develop enterprise web applications using React.js, Next.js, NestJS, TypeScript, JavaScript, Microsoft SQL Server, and RESTful APIs.
- Develop backend modules for workflow management, task scheduling, resource allocation, ticketing, and service operations.
- Design database models and optimize SQL queries and API operations for enterprise workflows.

### Decision Science Trainee

May 2025 – Jan 2026

*Mu Sigma*

- Analyzed large-scale business datasets using Python and SQL to generate actionable insights.
- Automated data preparation workflows and developed analytical dashboards and reports.

## TRAINING

### AWS Re/Start Graduate

2025

*Tech Mahindra Academy*

- Gained hands-on experience with AWS EC2, S3, cloud computing, networking, security, and deployment fundamentals.
- Implemented cloud-based solutions using EC2 and S3 for compute and storage use cases.

## PROJECTS

### VendorOPS – Enterprise Field Service Management Platform

2026

*Next.js, React, NestJS, TypeScript, Prisma, Microsoft SQL Server*

- Developed a full-stack platform for customer, machinery, service ticket, engineer, service report, leave, and workforce management.
- Implemented role-based workflows, multi-engineer ticket assignment, scheduling, time tracking, and service operations using modular frontend and backend architecture.

### Design & Resource Scheduler System

2026

*React.js, Node.js, Microsoft SQL Server, RESTful APIs*

- Built a full-stack resource scheduling platform for managing tasks, resources, and workflow dependencies using React.js, Node.js, Microsoft SQL Server, and RESTful APIs.
- Implemented dependency-aware task scheduling, hierarchical workflows, resource allocation, leave management, overtime handling, and real-time schedule updates.

### AI Interview System – Microservices Architecture

2025

*Python, Node.js, RESTful APIs, Microservices*

- Developed an AI-powered interview platform with services for interview generation, candidate evaluation, and automated feedback.
- Designed RESTful APIs and modular microservices for scalable communication and processing.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, SQL

**Web/Backend:** React.js, Next.js, Node.js, NestJS, Flask, REST APIs, Tailwind CSS

**Database/Cloud:** Microsoft SQL Server, Prisma, AWS (EC2, S3)

**AI/Data:** Machine Learning, Deep Learning, NLP, Computer Vision, Data Analysis, Power BI

**Tools:** Git, Docker, VS Code

## CERTIFICATIONS

Salesforce Certified AI Associate    AWS Cloud Foundations    Google Business Intelligence    Advanced Certified ScrumMaster (A-CSM)
