Professional Summary

Full Stack Developer and Computer Science graduate specializing in AI & ML, with professional experience building enterprise web applications and backend services. Hands-on experience with React.js, Next.js, Node.js, NestJS, TypeScript, JavaScript, SQL, REST APIs, and database-driven application development. Knowledge of machine learning, NLP, and data analytics, with an interest in building scalable software systems and AI-powered applications.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3

Backend: Node.js, NestJS, REST APIs, Microservices

Databases: Microsoft SQL Server, Prisma ORM

AI & Data: Machine Learning, Deep Learning, NLP, Computer Vision, Data Analysis

Cloud & Tools: AWS EC2, AWS S3, Git, GitHub, Docker

Professional Experience

Full Stack Developer Feb 2026 – Present

Eljo Solutions

- Develop enterprise web applications using React.js, Next.js, NestJS, TypeScript, JavaScript, Prisma, and Microsoft SQL Server.
- Build modular backend services and REST APIs for ticketing, resource allocation, scheduling, and service management workflows.
- Design database models, implement role-based application workflows, and troubleshoot frontend and backend integrations.

Decision Science Trainee May 2025 – Jan 2026

Mu Sigma

- Analyzed business datasets using Python and SQL to identify patterns and generate actionable business insights.
- Automated data preparation workflows and developed analytical reports and dashboards to support data-driven decisions.

Projects

VendorOPS – Enterprise Field Service Management Platform 2026

Next.js, React.js, NestJS, TypeScript, Prisma, SQL Server

- Developed a full-stack enterprise platform for customer, machinery, service ticket, engineer, and workforce management.
- Implemented role-based workflows, multi-engineer assignment, scheduling, time tracking, and service operations using modular architecture.

AI Interview System – Microservices Architecture 2025

Python, Node.js, REST APIs, Microservices

- Developed an AI-powered interview platform supporting interview generation, candidate evaluation, and automated feedback.
- Designed modular services and REST APIs to separate application responsibilities and support maintainable processing workflows.

Design & Resource Scheduler System 2026

React.js, Node.js, SQL Server, REST APIs

- Built a resource scheduling platform supporting task dependencies, hierarchical workflows, resource allocation, and schedule updates.
- Implemented backend APIs and database workflows for leave management, overtime, and resource coordination.

Education

B.Tech in Computer Science and Engineering (AI & ML) 2021 – 2025

Vasireddy Venkatadri Institute of Technology *CGPA: 7.26/10*

Training & Certifications

Training: AWS re/Start Graduate – Tech Mahindra Academy (2025)

Certifications: Salesforce Certified AI Associate, AWS Cloud Foundations, Google Business Intelligence, Advanced Certified ScrumMaster (A-CSM)
